

SOC Analyst with 1+ year of UAE-based healthcare IT experience, hands-on SIEM monitoring, and real-world threat intelligence. CEH v12 certified with exposure to NESA UAE and ISO 27001 compliance. Comfortable working in Arabic-speaking environments and willing to develop Arabic language skills to support UAE healthcare clients.

PROFESSIONAL EXPERIENCE

IT Support & Security Analyst
Metro Medical Centre | Ajman, UAE

Jan 2026 – Present

- Support 50+ healthcare staff with L1/L2 IT issues — maintaining zero downtime on patient-care systems including MEDAS HMS.
- Monitor and respond to security alerts following incident response procedures; first point of contact for security events across all clinical endpoints.
- Manage network infrastructure — switch configuration, IP management, and endpoint security across clinical workstations.
- Handle OS deployment, patching, and system imaging to keep all devices secure and compliant with UAE health authority requirements.

Cyber Threat Analyst Intern
FalconFeeds.io | Remote

Mar 2025 – Sep 2025

- Monitored dark web forums, Telegram channels, and paste sites daily to detect threats targeting global organisations.
- Documented malicious IPs, domains, and file hashes (IOCs) for SIEM ingestion; mapped adversary TTPs to MITRE ATT&CK framework.
- Delivered structured threat intelligence reports translating raw findings into clear, actionable risk summaries.

Cyber Security Intern
Phemesoftware Pvt Ltd | India

Sep 2024 – Nov 2024

- Built Python scripts to automate routine security monitoring and reporting tasks, cutting manual effort significantly.
- Produced ISO 27001-compliant vulnerability reports with prioritised remediation steps for IT and management teams.

TECHNICAL SKILLS

SIEM	Splunk, IBM QRadar — alert triage, log correlation, incident detection
Threat Intel	OSINT, dark web monitoring, IOC analysis, MITRE ATT&CK mapping
Compliance	NESA UAE, ISO 27001, ITIL — vulnerability reporting, policy documentation
IT & Network	Windows 10/11, Active Directory, Microsoft 365, TCP/IP, DNS/DHCP, VPN, firewalls
Scripting	Python — security automation, log parsing, reporting scripts

CERTIFICATIONS

- Certified Ethical Hacker v12 (CEH) — Learnskart
- IBM Cybersecurity Advanced
- 1 Million Prompters — Dubai Future Foundation
- Google Cybersecurity Professional Certificate
- Cisco Introduction to Cybersecurity
- IBM Generative AI Essentials

EDUCATION & LANGUAGES

BSc Cyber Security with IBM — Yenepoya University, India
Graduated May 2025 | IBM-partnered programme

English (Professional)
Malayalam (Native) | Hindi | Tamil
Arabic (Basic — currently learning)
